TRADE
MARK

WE started this business in 1854 with a modest capital AND one important trade principle. That principle was, and is to-day, the secret of our success. Here it is: "Produce the BEST GOODS and give the BEST SERVICE."

During more than fifty years of business, we have kept that principle constantly before us. Our goods are the best in their line that we can manufacture. They are known throughout the country and are sold by the leading dealers. Look for trade-mark on goods you purchase. If your dealer does not handle goods with our trade-mark, please write to us. Remember Bradley & Hubbard Mfg. Co. goods mean QUALITY. Respectfully yours,

THE BRADLEY & HUBBARD MFG. CO.

Electric Reading and Table Lamps

WHEN twilight falls and evening lamps are lit," the world of darkness is shut out, the cosy cheer of home shut in. The soft radiance of the lamp brings out all the warmth and welcome of home.

More than any other furnishing, the electric, gas, or oil fixtures for lighting should possess the quiet beauty of artistic form and finish.

Our line of lighting fixtures is unequalled in artistic excellence, in originality and effectiveness.

We have a wide variety of designs and finishes. None are commonplace nor lacking in dignity and charm.

Lamps for the Desk, Piano, Floor, —for Library, Hall, Reception Room, Den, and other Rooms.

Ask your dealer to show you our line.

No. 2166 E

A beautiful example of a period style
Art Glass or Silk Paneled Shade

Gas Portable Lamps

A GAS LAMP that is portable, that can be placed on piano, desk, or table, as the need may be, is a great convenience. Sometimes, too, you will find the whole effect of your room changed by placing the light fixture in a different part of the room.

Our Gas Portable Lamps are equal in beauty to our noted line of Electric Reading Lamps. Any B. & H. Lamp lends distinction to the room.

You will have no difficulty in selecting an appropriate pattern, at a moderate price.

The design we illustrate has proved very popular; we have also many other designs equally good.

No. 2206

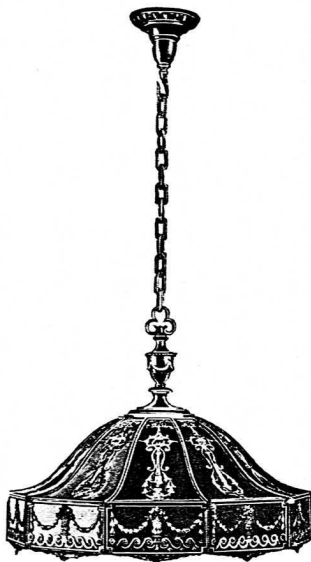

One of our many desirable styles

The Dome Fixture

FOR the Dining Room, one of the most appropriate and convenient styles of fixtures is the Dome. These we make in a large variety of models, both for gas and electric lighting

The form, style, and finish are carefully planned, and only the best of material and workmanship is allowed to enter into the construction of these goods, our aim always being to "Make the best."

No. 2273 E

Electric Dome Fixture
Shade with Art Glass or Silk Panels

The Shower Fixture

FOR Library, Living Room or Dining Room in place of a Dome Fixture, many people prefer the effect of a cluster of lights, called a "Shower Fixture." These furnish a pleasant radiance, brilliant enough for the largest room. We make them in styles and finishes to harmonize with any decoration.

You will be pleased with the artistic quality of any Shower Fixture bearing the trade-mark of Bradley & Hubbard Mfg. Co.

No. 2136 E

Shower Fixture of pleasing
Design

Ceiling Lights and Brackets

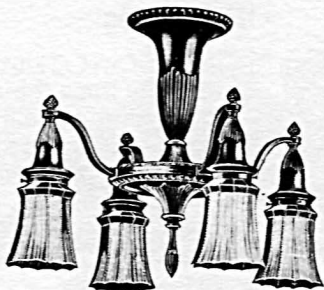

THE attractiveness of almost any room in the evening depends to a great extent upon the proper placing of the lights. The Fixtures, if of graceful, well-chosen design, give the finishing touch to the whole.

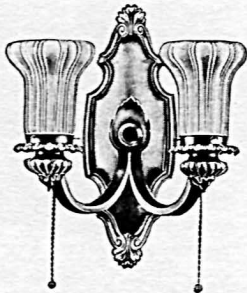

You need not, however, take a course in "Interior Decoration" to secure the best results in lighting arrangements. Simply tell your dealer that you wish to select from the B. & H. lines. ANY choice will then be a good one. Note, for example, the distinction of the two styles shown on the opposite page.

We make a specialty of furnishing residences and public buildings with correct Lighting Fixtures.

Special designs and estimates when required.

No. 2137 E. Ceiling Light
Graceful, neat Design

No. 2055 E. Bracket
Sheffield Design and Finish

Oil Lamps

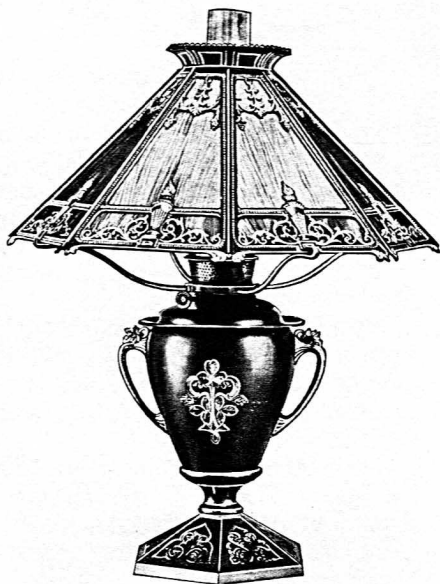

THE charm of an Oil Lamp depends on three things —its light-giving quality, the artistic form and finish, and the beauty of its shade.

There are changing fashions in lamps as in nearly all things, but the lamp that is of real merit in design will always be in good taste.

We offer a wide range of really fine designs. The shades we are now showing are probably the most varied and beautiful we have ever achieved.

In shades the most pleasing effects are those obtained by the use of art glass, with its beautiful iridescent, changing hues, fitted in appropriate metal framework.

We show here but one of our many designs. Ask dealers to show you others—with the B. & H. trade-mark.

No. 6831

**Reception Lamp with B. & H. Burner
and Art Glass Shade**

Art Metal Goods

THE right answer to the puzzling question,—
“What to select for a gift”—is to be found in our line of Art Metal Goods. These goods possess the merit of being both useful and ornamental. They will last for years, to be ever pleasing reminders of the giver.

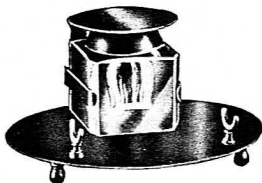

You will find it a pleasure to look over the many novel styles in this line of ours, and will be enabled to choose a gift both pleasing and artistic.

Desk Sets, Ink Stands, and other Stationery Goods, Book and Letter Racks, Photograph Frames, Calendars, and a variety of other articles in metal are offered.

Remind your dealer that you wish to see the Bradley & Hubbard Mfg. Co.'s line.

No. 1189
Calendar

No. 1275
Inkstand

No. 1099
Desk Set, 9 Pieces, Cast Brass
A beautiful set, Egyptian ornamentation

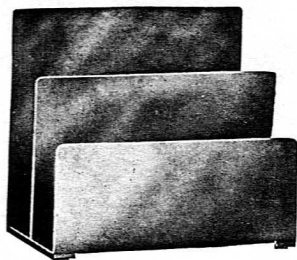

Art Metal Goods

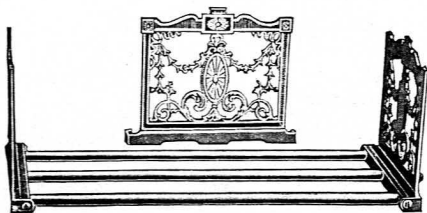

OUR assortment of Book Racks and Stationery Holders embraces every desirable style, from the plain and moderate priced patterns to those more expensive, and satisfactory selection can be easily made.

There is a certain satisfaction in purchasing, either for your own use or as a gift to a friend, goods that can be depended upon.

When they bear our trade-mark you can be sure they are right.

Stationery Holder

No. 1220
Extension Book Rack
One of our many attractive patterns

Smokers' Goods

N Smokers' Stands and Sets, Cigar Boxes and Jars, Match Holders, Ash Receivers, and other articles in metal for the Smoker's use, our line is unequalled for variety of designs and finishes.

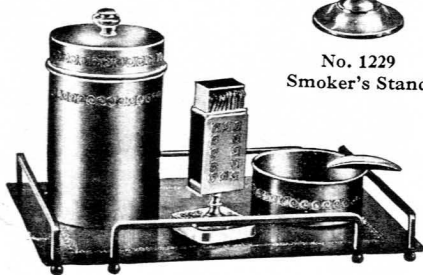

It takes time to make perfect things, as well as time to know how. We started in 1854 and are learning and improving all the while.

No. 1352
Ash Receiver

No. 1229
Smoker's Stand

No. 1144. Smoker's Set

Candlesticks

VERY woman admires a collection of Candlesticks and longs to possess at least a pair. They are truly decorative, and remind one of the poetry and romance of days when fair ladies dressed and entertained by the light of soft gleaming candles.

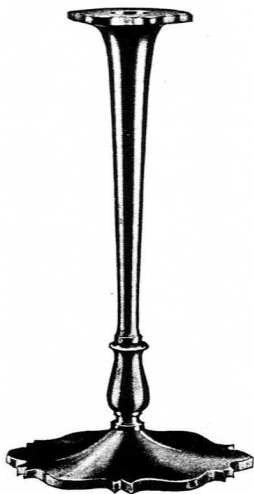

We have many patterns—the always-pleasing styles modeled after the Colonial silver or brass candlesticks, dainty French conceits, and the quaint, square models of the “Mission” styles.

Satisfactory selections can readily be made from our line.

You could hardly reach this page of this booklet without realizing the art qualities of our productions. Our designers are not excelled in their work, our workmen are the most skilled.

No. 1319

No. 9292

Two good styles of Candlesticks

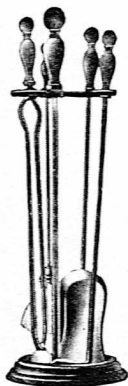

Fireside Appointments

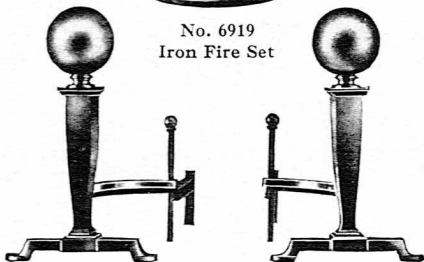

FOR centuries the cheery hearth-fire has stood as the symbol of the home. Around the hearth-fire cluster happy memories. Surely all Fireside Appointments, such as Andirons, Fire Sets, and Fenders, should be of sterling worth, of dignified simplicity.

When selecting Fireside Metal Equipments, you will be assured of securing artistic, serviceable articles if you insist on getting the Bradley & Hubbard Mfg. Co. goods.

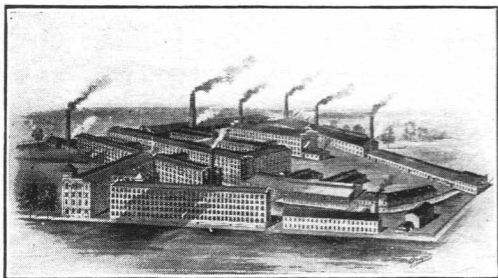

We began manufacturing in 1854, more than two generations ago, and are still putting earnest effort into producing the finest Fireside Equipment for the modern home.

Brass Andirons

**Factories of
THE BRADLEY & HUBBARD MFG. CO.
Meriden, Conn.**

**Equipped with the most
improved machinery and up-to-date facilities
which enable us to produce
the Best Goods**

NLY a few illustrations of our extensive line can be shown here, but we trust sufficient to interest you to the extent of always asking your dealer for B. & H. goods. That we have been making these goods since 1854 is reasonable proof that the B. & H. line is unexcelled, up to date, with a reputation in every article.

Upon receipt of request, postal or otherwise, we will forward names of dealers in your vicinity who handle the B. & H. lines. If your dealer cannot supply you, please write us.

We extend a cordial invitation to visit and see our productions at our sales-rooms, 26 Park Place, New York City, and at Meriden, Conn.

Yours respectfully,
The BRADLEY & HUBBARD MFG. CO.
